Frankfurt Hahn Airport

Germany

Date: May 20, 2016

Dear Sir or Madam,

Yangtze River Express has used Frankfurt-Hahn airport as major hub in Europe since September of 2010 through 2014. Given the professional and efficient service in Frankfurt-Hahn airport, we increased flight frequency from 3 weekly flights at first stage to 9 at final stage.

Due to abnormal colder weather in 2014 winter at Hahn and constraint of our aircraft equipment, our flights encountered adverse frozen fog and saw serious delays which incurred constant complaints by our clients. We followed the requirement from our clients and temporarily left Frankfurt-Hahn airport with pity notwithstanding your excellent service.

We understand Shanghai YiQian Trade Co. currently participates in the "Project Runway" auction process and aims to acquire the majority stake to operate Frankfurt-Hahn airport. We are pleased to consider redirecting above mentioned flight capacities to Hahn airport if Shanghai YiQian Trading Co. is successful in this bidding process.

With Best Regards,

Zhong peng
President,
Cargo Business
Yangtze River Express
